

# *What am I?*

*Can you find an image to describe what the turbine is like.....?*

*For example if I say a bee is like a small tiger I am comparing the yellow and black stripes and the feeling of danger.*

*So what is a turbine like? Think about how it looks, sounds, what it does, how it stands in the landscape, what it means to you.*

*Some people have called them 'Daggers in the heart of the Vale' others have called them 'Beacons of hope', so it depends what you think about them how they make you feel.*
