SUSTAINABLE ENERGY TRUST

Task 1 – When we hear about the large number of animals that are endangered it can be frightening and upsetting. The best thing that we can do is recognise the problem, but what action can we take?

Select and **research** an **endangered species** of your choice and **on an A4 or A3 page**, design a **campaign poster** to raise awareness. You should research and include the following information:

- Where does your animal comes from?

Notes:

- Any facts including current numbers?

Notes:

- What factors have caused numbers to decline?

Notes:

- What can be done to rescue the animal from extinction?

Notes:

Task 2 – Using arrows, match the **sustainable topics** below with some of the subjects you may study.

In Food Tech	In Geography	In Science	In Maths	D&T

| *"we calculate the number of wind turbines needed to supply a small town with electricity"*	*"we look at sustainable materials and design and the life cycles of products"*	*"we look at how our food is produced and how it is transported"*	*"we learn about the impact of human activity on the natural world"*	"we learn about ecosystems and the importance of biodiversity for the health of the planet"

Task 3 – Using the words in the list below, fill in the gaps in the following sentences

Reduce ~ Repair ~ Rethink ~ Recycle ~ Reuse ~ Refuse

Learn to _____ your bike so that you can mend any punctures you get and keep it working well.

We are starting to _____ the way we buy food products and some people now _____ to buy any fruit and veg that is packaged.

We must all drastically _____ the amount of single use plastic we use. If you must buy products in plastic bottles, you can _____ many of them but remember you can often also _____ them, for example as a vase or for watering plants!

Task 4 – Design your ultimate **sustainable 'green' job**. Think of what you would really like to do and how that job could be made to contribute to a sustainable future! **Be imaginative**!

Present your ideas in the form below.

My ideal green job is:

Sustainable Future

Date:

Name:
